## A perfect match

# COLOUR YOUR WORLD.

There is no need for an architect's or designer's ideas to be limited – a number of Visign flush plate models can be perfectly coordinated with any bathroom colour scheme. This includes any solid colour, from the glossiest of cherry reds to the mattest of matt black – let your imagination run free.

Viega can also provide metallic special finishes that are colour matched to all leading brands of brassware. This is achieved by using a nickel-plated base that is either polished or brushed. It is then finished with a translucent lacquer coating. Metallic colours include copper, brass and brushed black chrome.

You can also order special gold colours. Examples include gold-plated gloss or matt, polished red gold and brush gold optic.

Special colour matching is available on the following ranges:

- Visign for Style 10
- Visign for Style 12
- Visign for More 101
- Visign for More 104

## Viega Visign flush plates

# PERSONALISABLE FLUSH PLATES

Gold-plated **598 495**

## COLOURS FOR VIEGA FLUSH PLATES

Viega will manufacture your flush plate to a specific colour and finish. We will require details of your colour choice (e.g. a RAL colour code or sample). Alternatively, Viega can perfectly match the flush plate to the colour and finish of many leading brassware manufacturers. Whatever you have in mind, Viega can help you create a beautifully co-ordinated bathroom.
